alpha 159 q4 Vs 164 Q4

While I put in order my issues of 4ruote me are capitato for the hands that one with the test of the 164q4... and here it has come to think... the 2 cars to me are much similar in spite of the the 159 years that separate to them... considerando that the 164 hung little... ugly figure is less long... is not sure e4 not ago... anzi... the performances found for the 164 was 240,5 of km\h and 7,7 on the 0-100... theoretically the 159 are advanced... do not come to me to say that is powerful + why those horses in + if they go some in the cited limitations over... that of thoughts?
 moreover the 164 come defined impegnativa and corsaiola like street behavior

The FIRE has always ragione(7250rpm)

the vel max of the brera it is due to the scellerata one chosen of the relationships, with sixth of power would have approached the 250.

the 164... mah... the opposite speech of the 939, hour we mourn the true motors alpha but the cars are excellent, then the only inopinabile point were instead the motors

for it gets passionate you to it of music!!!! www.vieuxcarre.it

but perche' the 164 were beautiful fatemi to understand....? 😞😞

164 first series, 1987, were beautiful + seg.E of the automotive production of the time by far...
Memory still when people stopped us x road to October 87, when my father turned with before the 164 3000V6 to Milan, I lack was one ferrari!!

The 164Q4 he is decidedly comparable to 159 even if by now nearly 20 years of difference have made that cars of 2 different segments have almost identical measures.
The weight remains similar (in order of march 164 arrived to approximately 1700kg) and being as soon as catalyzed Busso it still made to feel its vigoria and anger in substantial manera, compensating the horses in less regarding the new motor that of against if it were free of the stoppers antipollution would turn + very high and a lot + fort.

I have not had way to still try the 159Q4, but if I must compare for es the respective TA, beh from the dynamic point of view it is NOT a CONTEST in favor of 159, also considering the 164QV with electronic suspensions, that the time was perhaps the best TA to world x, but that today it feels the weight of the years, and cmq the premium he is decidedly advanced to the tipo4.

Insomma, said that between the 2 I do not know which Romeo Alpha is +... second me 159 😞😞

Staggering But I do not let go

who... beh lasciamo to be there from...*

you have broken truly the balls... is the third participation that you make on this 3d and are a dumb + of the other... excuse but it pays you the bmw for giving against to the alpha?
I do not write a lot and I do not react never in this way... but reading every day to yours post me he seems that you lorenzo are making one crossed against the alpha... when wants to us wants... does not understand the sense to us of the topic?prova to reason... 2 sedans... 4porte... dimensions and similar weights... trazione integral... top of range... anche the price made the debite proportions is confrontabile... motor around to 3 l and performances on the paper similar... then if you want to say that brera it is slow you make as you want but the brera enters nothing not there here... indeed inasmuch as you have called it in cause the 159 on the reviews has been

The FIRE has always ragione(7250rpm)
