the weight if memory badly were not of 1800kg round, round

+ or less, depend on the measurement methods, cmq around to that figure...

We say that then I did not feel many rises of shield on the weight but... 😊 😊 😊 I add a personal **ahimã** ...

Staggering But I do not let go

anch' I said cazz, and then I said it still when he arrived to house and it makes a pair me of talks nonsense us serious 😊
But you see as they change the judging meters? today 1800kg (than also audios nearby door) and ulula whale-boat... and is between that ululano 😊

Cmq if tests the USA version pushes a lot less but much.

same configuration electronic and calibration debimetro 😊

Cmq the large decrease is perceived between euro3 and euro4 on the V6, + that between 2 and 3.

scusami but I do not share at all.
 The 164 ADVANCED E' To 159!!!!!!!!?????????

I possess 520i a E34, ovvero the bmw of reference for the 164, the comparison I am SIMPLY IMPIETOSO, motor to part.
 mine has 300k km and still the assemblages and the materials hold, the 164 with the same mileage to level of state car more are adapted in order make the cages us for the chicks that in order to go to us in turn.
 raga we speak about 2 cars qualitatively very various!!

the 159 instead seem resist more than well the comparison with series 3 e90

for it gets passionate you to it of music!!!! www.vieuxcarre.it
